About This Game

Lone Wolf is a game to become a captain of the space warship "Lone Wolf", like Captain Harlock of Arcadia or Yamato of Space Battleship to experience of a space battle opera.

Point 1 : Strategic turret installation according to the characteristics of the enemy gas

You will fall into the charm of a gun that emits a powerful firepower toward the enemies, and you will be attracted by the various charms of the space warship "Lone Wolf".

Various turrets installed on space battleships

Turrets (turrets) that are installed in a battleship are divided into a physical system and an optical system. You can operate a tactical battle by installing turrets (turrets) that match the type and nature of the enemies the appearance.

Point 2 : Strengthening and Growing the Skills

Space Battleship Yamato's Skill Wave with the space battleship Lone Wolf's skill to show off the enough power to change the battle board

Plasma flare / Energy shield / Hyper booster

It has a plasma flare skill that generates powerful energy waves within a certain range around a space warship of Lone Wolf, and

an energy shield that reduces damage by creating a shield on a warship, and a hyper booster skill that increases the movement speed of a certain time of period.

Contents

Mission

3 chapter & Extra mission total 40 mission

Survival

Survival is Infinite play content. Staying for a long time from the enemies.

Play Tip!!

Users should attack enemies, keeping proper distance from them!!

Enemies that are appeared would approach toward the battleship to damage it.

Radar plays the role as a device to show from which direction enemies are approaching to the battleship. With Radar's help, users get to notice a route from which enemies are closing in on the battleship and then move against from a route that enemies approach.

While enemies are coming near to attack the battleship, users could gain time as well as secure the time to subdue enemies.

At first, I really enjoyed this game. I've played my fair share of VN's, and I thought the production values were good, the story was cute, and the stats mechanism easy enough to understand. Unfortunately, I discovered on the second playthrough that your choices do not matter. I wanted to see what ending I would get if I purposefully made bad choices, and I got the *exact same ending as if I had made the "love" choice.* In other words, my choices didn't matter at all. The only thing they affected was if I received some bonus content or chapters.

This really effected the story for me. Why bother having a "love stat" or "love choice" if no matter what you do, the characters fall in love?. This game starts out hard but once you get past the beggining you will find one of the best games you have ever played. I need more episodes to be released.. Great Game ! You can tell the devoper has spent a great deal of time getting everything right. This is a recomended buy.

Message to the developer:

Please don't give up on Steam its just a matter of time for people to learn that you are here.

I have purchased all your games on IOS and will buy them on steam too.
Inferno 2 plays great on the big screen! Steam needs more developers like you, it surprises me that they don't promote your game more for you.. Excellent Benchmark when building your own pc.. A brilliant little pack for the money if you use all its features if your one who drives it from the f4 hud and never feel's confident to drive a steamer how you should this is a great learners tool with nicley layed out cab and easy to understand manual.The addition of the autocoach is possibly the best feature of this pack as it allows me to have another challenge when i had the engine down and in practice an entirly diffrent experience.

The modeling and texture work is second to non the high standared expected of victory works is shown well in this pack and the phisycs and sounds are also of a high quality my only gripe of this engine is that the rear middle window will not open already achived on the 56xx made by karma 99 many years ago apart from this the engine is a great bit of kit and a pleasure to drive. A pretty good detective game with pretty good story. Not too long aswell. Great gameplay and decent graphics for that time. Get it on sale for sure!. A great Game. Lot's of fun. I'd like to see more Games like this. The "2 PLayer in the same room but only one PC" Option is wonderful!. This game has that fresh new experience that indies are made to deliver. The levels are just the right amount in length and not too easy nor too difficult to solve, especially when you correctly use the bonus items you get from trapping spiders. It has good replayability considering that the levels are randomly generated each time you start a new game, so you are always solving new mazes. It does require a system with reasonable graphics capability, so my low-spec laptop was borderline but my desktop with dedicated video card had no issues.. **YOU GOTTA GO IN THE SPACE HOLE.** I look at this as just like one of the old short cartoons. It's nothing fancy, but worth a few minutes if you are short on content to keep you occupied while you wait for your wallet to recover from purchasing VR.

door

9/10. Buy it, Play it and KILL THE RAT BEAST!!! Royal Kingdom - add me and let us get those rat Cvnts :p. Perhaps overly simplistic, the completely random nature of the game removes any skill or learning from the game. Additionally, the game doesn't clearly convey the rules or the meaning of your actions.

The only driving force while playing this is to unlock the next contending gunslinger. If you're down to roll dice over and over until you finally get to see another pixelated sprite, this game is for you.. Pretty Cool.. The game is great, being a new game to Steam and all. There is plenty of room for improvement, but it is still far and away the best AFL management sim on the market imo.

With time, the game will only get better, hopefully with continuous game improvements from the devs.

Definitely a game for AFL fans and for people looking to sink a few hours over the offseason.

. Exactly what I was hoping for
