About Game

You are bird enthusiasts — researchers, bird watchers, ornithologists, and collectors — seeking to discover and attract the best birds to your aviary. Each bird extends a chain of powerful combinations in one of your habitats.

Each habitat focuses on a key aspect of the growth of your aviary:

- Gain food tokens via custom dice in a birdfeeder dice tower
- Lay eggs using marbled egg miniatures in a variety of colors
- Expand your bird collection, drawing from hundreds of unique bird cards

The winner is the player with the most points accumulated from birds, bonus cards, end-of-round goals, eggs, cached food, and tucked birds.

I was disappointed to find that Tabletopia does not allow me to play this game on my iPad without buying a subscription to their service even though I purchased the game here and can access it through Steam. The game is there on the App but is listed as Premium still even when the iOs app is connected to my Steam account which made the purchase. Not a very good system if you ask me. That being said, the game looks great.
